

CHARITIES PRACTICE

Our dedicated charities practice boasts some of the leading charities experts in the country and brings together specialists from across the firm – providing advice on the full spectrum of legal issues encountered by local and national charities throughout England and Wales, Scotland and Northern Ireland.

We are corporate partners of the Institute of Legacy Management (ILM) and one of only a small number of firms in the country with specialist expertise in the area of contentious and non-contentious legacy work for charities. The ethos of our team, which ties in with our corporate partnership of the ILM, is to help ensure that every donor's charitable legacy achieves its greatest potential.
